## About Us

**S**tatic & Motion Limited (S&ML) provides outstanding client support, operational excellence and global best practices to ensure reliable and consistent performance for multinational and indigenous companies. We have the experience, expertise and infrastructure to support the most diverse range of services ranging from mechanical, civil electrical & instrumentation onshore / offshore facility maintenance, pipeline construction to engineering designs for the oil and gas industry.

“**W**herever we operate we stand by clients and the work we do” Since commencement of full operation, our tradition is to execute all projects to a very high standard and specification under-qualified supervision, ensuring the realization of job requested by our client at the specified timeline. We deploy the best skilled and qualified personnel, and ensure that they are continuously monitored and supervise for efficient performance.

## Our Team

Static & Motion Limited (S&ML) has an efficient workforce. We have a qualitative system for accessing key skills and experience to ensure that our staff and consultants have significant and relevant experience to the job assigned.

Our team comprises of project managers, engineers, architect, quality control officers, cost engineers, planners, and health & safety professionals with experience in all our service areas. Our commitment to our clients is to deliver timely service with excellence and integrity.

Our management uses its knowledge, expertise, and available resources and manpower adequately to meet client's expectation

### OUR VISION

“To become a world class provider of excellent service to the oil and gas sector through efficient, innovative and top quality service offerings to our clients driven by passion and excellence.

### OUR MISSION

We are a team driven to deliver the utmost in excellent quality service, we are highly innovative and efficient; and our desire is to be one of the leaders in the provision of services to the oil and gas industry.

An aerial photograph of a large industrial facility, possibly a refinery or chemical plant, featuring a complex network of pipes, walkways, and structural steel. The image is overlaid with a semi-transparent grey filter. The word 'CLIENTS' is written in a large, bold, red serif font across the center. Below the text, a red horizontal line extends to the right, ending in three red chevrons pointing right.

# CLIENTS

## Our Clientele

Platform Petroleum

BELEMAOIL

A grayscale photograph of a construction site. Several workers in dark uniforms and white hard hats are working on a steel framework. They are bent over, focused on their tasks. A white bucket is visible on the ground. The background shows a complex network of steel beams and pipes.

# SERVICES

## Our Services

**A**T Static & Motion Limited (S&ML), our services are process driven, from design to implementation of civil/structural erections. We provide innovative solutions for all clients through excellence of services rendered in all aspects of civil/structural construction.

Our civil/structural capacities include:

- Civil/Structural Designs
- Building Construction
- Wellhead Location Preparation
- Drainage & Erosion Control
- Piling Works
- Mooring Structures
- Jetty Construction
- Platform Jacket Structures
- Steel Structural Shelters

## Our Services

**E**PCI (Engineering, Procurement, Construction and Installation) forms a major core competence of our operations. We have the required resources to execute Greenfield and Brownfield projects for Oil&Gas, Utility, and Power Sector covering Mechanical, Electrical, Pipeline, Corrosion Protection and Asset Integrity services.

Our Past Experience in EPCI includes:

- Pipeline Construction
- Compressor Shelter
- EOT Cranes (5T – 20T)
- Plant Decommissioning
- Firewater & Foam Protection
- Prepaid Gas Metering Solutions
- Piping Fabrication
- Corrosion Protection

## Our Services

**D**redging and marine operations are part of our day-to-day activities. We have fully stocked floating plants, tugs, booster pumps, hoses, pipes, cutters etc.

We have carried out several land reclamation, water channel desilting and maintenance.

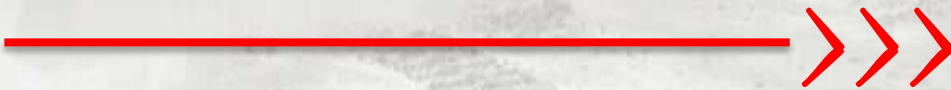

In addition to the dredging and marine operations we also provide the following equipment support services to other vendors:

- Swamp Buggies
- Excavator
- Bulldozer
- Dredgers
- Bulletproof Tugs & Boats
- Dumpers
- Payloaders
- Grader

A faded, grayscale background image of an industrial construction site. In the center, there are two large, rectangular metal structures with grates, possibly part of a power plant or refinery. The sky is filled with large, white clouds. In the foreground, there is a dirt and gravel area with some construction equipment and a striped barrier on the right.

# PROJECTS

# EGBOAMA WELL4T – LOCATION PREPARATION

# OBEN FLOW STATION PIG TRAP INSTALLATION

# OBEN AG COMPRESSOR INSTALLATION

# OGPOOC COMPRESSOR SHELTER FABRICATION
